ANYA POPOVA

Junior Back - end developer with Java

PERSONAL PROFILE

I am a Junior Back-end developer currently looking for a new opportunity. I decided to change my carreer path after 10+ years of working in the field of architecture and interior design. As a result of my professional experience I am skilled in coordination, communication, managing projects and working in a team. I am a hardworking and dedicated person who likes to experiment and find the most efficient ways of making things work. I am eager to join a team and contribute to the development of awesome applications so I am looking for a Junior Back-end Developer position.
